Location: Toronto, ON

Personal Summary

I am a software developer with 5 years of experience. Throughout the various projects I have worked on, I have developed strong teamwork, collaboration, and communication skills.

Over the past year, I transitioned into the role of tech lead, where I gained experience in team management, providing support, and driving project success.

I am highly motivated to learn new technologies and share my expertise. I believe I can be a valuable asset for the team and ensuring high-quality deliverables within deadlines.

I am eager to discuss further opportunities!
