Professional Title "IT Expert"
EPSI
2017 - 2022

2-year French national post-secondary diploma
BTS SIO
EPSI
2017 - 2019

PROFILE

I am a software developer with 4 years of experience in this field. Throughout the various projects I have worked on, I have learned how to work as part of a team, collaborate, and communicate effectively. In fact, in the past few months, I even took on the role of Tech Lead, where I learned how to manage a team, support them, and drive them forward.
I am highly motivated to learn new things and share the skills I have acquired. I believe that I can be a valuable asset in pushing a team forward and, of course, delivering quality output within deadlines.
I am available right now and I am extremely motivated. It would be a pleasure to discuss further!

WORK EXPERIENCE

PYTHON DEVELOPER
Givex | Sep 2023 - Now
Worked in the Givex core team to create and maintain features for the back office and some of the frontend.

- Developed frontend and backend using Python
- Maintain an application used by thousands of clients
